OPIS PRODUKTU

Nio is Barco's flexible, industry-standard display solution for diagnostic imaging. Nio 3MP provides image crispness and an excellent viewing angle in a 2048 x 1536 resolution.

High-quality imaging

The Nio 3MP brings high brightness, exceptional crispness and an excellent viewing angle to your readings. Backlight Output Stabilization (BLOS) technology guarantees fast power-up and continuously stabilizes the luminance output of the LCD's backlight.

Fully transparent calibration and QA

Barco's Nio 3MP is bundled with MediCal QAWeb for automated DICOM calibration, Quality Assurance, display asset management, problem solving and reporting, guaranteeing maximum diagnostic confidence and uptime of your PACS display systems.

The Nio 3MP display system includes:

A 3 MegaPixel flat panel display

MediCal QAWeb software for automated calibration and Quality Assurance

A high-speed, high-performance display controller: check the compatibility matrix

Features

High-brightness, image crispness and an excellent viewing angle

High-speed display controllers for maximum workflow efficiency

Improved diagnostic confidence with Barco's MediCal QAWeb program for Quality Assurance of PACS displays

Long-term image confidence with Barco's Backlight Output Stabilization (BLOS) technology

Perfect color matching between displays

Protective front cover, protecting your valuable LCD against damage from intensive use in clinical rooms
