Nazwa	NMS Nexxis OR Management Suite
Cena	**0,00 zł**

OPIS PRODUKTU

The NMS software is the cornerstone of Barco's networked visualization solution for the digital operating room. This management suite sets up, manages and monitors the video-over-IP streams between the MNA encoders and decoders and facilitates configuration and management.
Integrated within the user interface of the operating room integrators, the software allows distribution of high-quality video, audio, keyboard and mouse towards any destination with a single touch on the screen.
Rapid application development
Barco's NMS software offers a user-friendly interface to help operating room integrators build their own application to control and manage displays and sources. All network complexity is hidden for the integrator, which allows for a highly intuitive environment to manage sources and destinations.
Dynamic thumbnails, overlays, PiP & PaP, and display layouts are just a few of the many features that are directly available at the API.
Benefits of Nexxis OR management software
auto-detection of all network streams
plug and play of Nexxis encoders and decoders
zero-touch application installation
management of multi-OR Nexxis infrastructure
intuitive user interface for extensive device management
fully featured web services API
Benefits of Nexxis OR management API
flexible association of streams with displays inside the operating room or between multiple ORs
dynamic thumbnail streams per source and display
assignment of overlays to streams
easy routing of video, audio and USB data streams

Features
Supported sources:
Barco Nexxis OR encoders and decoders
- encoders in: DVI, SDI, DP, S-Video, VGA, USB
- decoders out: DVI
IP sources (e.g. native IP cameras with H.264)
Embedded USB/IP streams
Embedded & external audio formats
Compatibility requirements:
Any Microsoft Windows XP SP3 PC, Windows 2008 R2 64 bit
Minimum 1GB free hard disk space
Minimum 256MB memory
At least 2.16GHz dual core CPU or equivalent
HIPAA authorization & security:
HIPAA user management with roles & rights
Active directory & LDAP support
Advanced audit logging
This product is a component of the following products
Nexxis for OR
IP imaging and audio management platform
