OPIS PRODUKTU

The CTWQ-51B is designed for high-end meeting rooms, boardrooms and collaboration rooms.

Impressive pixel power

Offering a light output of 5,000 lumens, the CTWQ-51B is small and light, yet extremely bright. Its WQXGA (2,560 x 1,600) resolution is higher than any other single-chip DLP projector, to produce the most stunning images you've ever seen. With its exceptional 4.1 megapixel, the CTWQ-51B offers 77% more pixels than a regular WUXGA display and 97.5% more than a 1080p display, making it the perfect solution for presenting large data sets in a single, high-quality image. As more pixels equal more information that can be shown on screen, it leads to better and faster decision-making.

It's oh so quiet

The projector is remarkably silent, and thanks to its optional noise reduction kit, its noise level can be further reduced to 25dB - a truly impressive level of silence. With the CTWQ-51B, working in an environment with front projection has never been more comfortable - because silence is golden.

Built to last

The CTWQ-51B features a filter-free design and reliable DLP® technology for unmatched picture accuracy and low total cost of ownership. Designed for unlimited use, it also comes with a three-year warranty, for true peace of mind.
