Cena **475 000,00 zł**

OPIS PRODUKTU

The Barco DP4K-23B is an ultra-bright 4K cinema projector for screens up to 23m (75ft). Featuring TI's 1.38" DLP Cinema® chip, the DP4K-23B offers stunning 4K images with ultimate brightness and vibrant colors to ensure a razor-sharp movie experience on premium cinema screens. By merging the projector and media server functionalities into one projector module, the DP4K-23B Barco Alchemy projector is a full-fledged, DCI-compliant projector and media-server solution with on-board storage. Reducing the required hardware, it increases simplicity and reliability. The smart projector even detects potential operational errors and warns users in case of mishaps. Great in TMS environments, it operates stand-alone in single-screen applications. Thanks to the embedded Barco Web Commander user interface, shows can be created and scheduled remotely.

Future-proof technology for an enthralling movie experience

A single DP4K-23B Barco Alchemy projector can truly elevate the movie experience by enabling 4K 2D to be shown at 60 fps and 4K 3D images. It also shows uncompressed 4K 60 fps alternative content for crisp images.

Low cost of ownership

Geared with integrated Barco Alchemy technology that drives operational and maintenance costs down, the DP4K-23B offers superior image processing, pristine images and ultimate reliability at a low TCO. The DP4K-23B projector is also available in a package with a third-party media server and it can be ordered without the Barco Alchemy module as well.

Unique benefits of Barco Alchemy technology

Combines media server functionalities with cinema processing electronics

A single DP4K-23B projector shows 4K movies at 60 fps and 4K 3D content

Fewer boxes lead to more reliability and ease-of-use

Simple operation thanks to intuitive 'Barco Web Commander' user interface

Easy upgrading of Series 2 projectors with Barco Alchemy module

Features

Brightest projector in its class

Enhanced 4K resolution at high frame rates and ultimate brightness for a premium movie experience

Barco's 4K digital cinema projectors are the first to show 4K movies at 60 fps and 4K 3D content on a single projector

Highest bit rates ensure pristine content at all times, also at high frame rates

Lowest cost of ownership thanks to integrated Barco Alchemy technology, lowest lamp operating cost, re-usable filters, low maintenance, etc.

Maximum ease-of-use through intuitive 'Barco Web Commander' screen management system, running via a web browser

Barco Web Commander also runs on iOS and Android tablets via the free 'Barco CineMate' app

Barco Communicator for simple configuration and updates of all modules in the projector

Long-term image quality and brightness thanks to Barco proprietary sealed engine and advanced DMD cooling

Coollest 4K engine for enhanced lifetime thanks to Barco's patented, advanced DMD cooling

Easy installation and maintenance thanks to proven modular design and common platform with DP2K series
