OPIS PRODUKTU

The ultra-bright and reliable HDF-W22 projector is a perfect fit for any large venue or event that requires extra brightness to show clear, crisp images in a brightly lit environment.

Reliable and powerful projection

With a light output of 22,000 lumens, the HDF-W22 displays superior images even in venues with lots of ambient light. Thanks to its 3-chip DLP technology, Xenon illumination and high-contrast optical engine, the HDF guarantees crisp images with rich colors on every occasion. What's more, it is fully ready to support 3D projection. It has also been equipped with Barco's high-end ImagePRO technology with Athena scaler for flexible scaling.

Wireless control and preview mode

In addition, the versatile HDF-W22 offers extended wireless control features via smart phone or tablet computer. The HDF-W22's built-in color LCD screen provides all the information you need on your projector's status and allows you to preview your connected sources.

Designed for rental and staging

Building on Barco's experience in the rental and staging market with the proven FLM family, the HDF has been designed with the road in mind. Its compact and modular design make it simple to install and service. Equipped with a top or bottom frame, the rugged projector can easily be rigged as well.

Fast signal distribution

Our proprietary BarcoLink technology guarantees swift signal distribution between Barco's projectors and image processors. With BarcoLink, signals are distributed over a BNC coax cable, which is not only more durable but also enables you to lower your costs.

Features

Ultra-bright, stunning images

High-contrast 3-chip DLP™ engine

WUXGA resolution (1920 x 1200)
22,000 center lumens
Contrast ratio of 1900:1
Xenon illumination
ImagePRO technology inside (Athena scaler)
Dual-core warp engine
Built for the rental & staging industry
Fully sealed optics
Extended wireless control options
3D ready
Preview mode on LCD display
Removable lamp house, power supply & electronics
Low video delay (broadcast live events)
Universal lamp house for all HDF projectors
Easy to set up, install, service and transport thanks to modular design
58 dB noise level
Low total cost of ownership
Sealed engine with constant image quality over time
Projector designed for high resistance against external contamination
Extended lamp warranty (500 hours)
Customer can replace bulb
Power-saving mode
TLD+ lens range that is fully compatible with Barco's FLM and HDX projector series
The HDF-W22 is upgradable to the HDF-W26, so you can spread your investment over time
