Nazwa	Projektor Barco Rlm-W8
-------	------------------------

Cena	0,00 zł
------	---------

OPIS PRODUKTU

Barco's RLM-W8 brings the saturated colors of 3-chip DLPTM projection to events and fixed installations, at the price of single-chip DLPTM technology.

Featuring blending and built-in warping

With an enhanced contrast, quick and creative stacking options as well as built-in warping capabilities for curved surfaces, Barco's RLM-W8 is a versatile choice for mid- to large-sized venues. In addition, it features blending technology to create seamless composite images across a canvas of any size. The RLM-W8 continues the RLM line's tradition of silence as well as low energy consumption.

Fast signal distribution

Our proprietary BarcoLink technology guarantees swift signal distribution between Barco's projectors and image processors. With BarcoLink, signals are distributed over a BNC coax cable, which is not only more durable but also enables you to lower your costs.
